GRANITE CITY, ILLINOIS

WE GIVE AND REDEEM EAGLE STAMPS

Parade Saturday To Include All 52 Teams In Park's Baseball Leagues

The annual Granite City park district league season-opening parade is scheduled here Saturday afternoon. Members of the record 52 teams in the leagues, city and park officials and an all-girl drum and bugle corps from Belleville will be included among units in the line of march.

Playoff Awards

Here, opening ceremonies will take place, together with the award of 1960 championship playoff patches to members of the four teams which won in division eliminations at the conclusion of the last season.

Actually, the park baseball season has been in operation for a full week, with 14 games already completed. The ceremonies Saturday will be followed by four regular season games, one in each age division.

Color guards from VFV Post 1300 and Tri-City American Legion Post 213 will post the colors at the opening ceremonies and also participate in the parade.

A 45-piece all-girl drum and bugle corps, the Belvilles of Belleville, will take part in the parade and present a 25-minute exhibition at the baseball fields. Their appearance here was arranged by Mathews Chevrolet Co.

The park district's recreation center queen and her court will ride in the parade in an open convertible, and about 150 souvenir rubber baseballs will be distributed to parade watchers along the route of march.

Also riding in automobiles in the parade will be Mayor Davis, Chief of Police Raymond Williams, Engineer Depot Commander Col. Jack Jeffrey, Nemoak Little League President Don Jackson, Granite City Supt. of Schools Dr. Harold Kober, School Board President Robert Spengler, Park Board President Barry Loman and Members Milton Worthen, Milton Allen and Clarence Baumeyer, Board Secretary Frank Rea and Director of Parks O. H. Williams, the founder of the boys' leagues here. Dr. Leo Coleman, Rev. Paul Evans of the First Assembly of God Church, who will deliver the invocation at the diamond ceremonies; James Holland of the Sacred Heart sports committee; and Harlan Doboy, manager of the Tri-Cities Chamber of Commerce.

Playoff championship awards for 1960 will be presented to the Western Auto Hawks, Atom division; Grand Cafe Rockies; Bantam; Maryland Mart, Midget; and Moose Club 272, Juvenile.

Saturday Schedule

Saturday's games, all scheduled to start at 2 p. m., will match St. John United Church of Christ and Granite City Tri-City Savings Bank of the Atom division, Sully Parker league; First Granite City National Bank and Kozak's Market in the Owen Friend league; Bantam division; Grand Cafe Rockies and Thurber Agency in the Smoky Backett league; Midget division; and VFV Post 1300 and Local 15 in the Doc Coleman league Juvenile contest.

Just prior to the start of the games, officials who participated in the parade will turn out to greet and furnish a batter and umpire at each of the four diamonds for a few "exhibition swings."

AIRBORNE, a Frohardt elementary school student, Newton Tapp (right), clears high jump bar during finals of Class 1 event at the annual grade school "sports day" track and field meet held Tuesday on the Frohardt school grounds. Tapp finished third in the event, behind Dempsey Cross of Logan school and Rusty McGovern of Marshall school, who tied for first. Events for girls were held Monday afternoon.

14 GC Grade Schools Participate In Annual 'Sports Day' Track Meet

Youngsters from the fifth and sixth grades of 14 elementary schools within the Granite City district swarmed over the Frohardt school playground Monday and Tuesday to participate in the eighth annual "sports day," held this year in the form of a track and field meet.

The competitors — girls on Monday, boys on Tuesday — were the survivors of track meets held at each school earlier this month.

Although competition at the "sports day" was spirited and ribbons were awarded to the top five finishers in each event, the real purpose of the program was to test effectiveness of the local physical education program on the elementary school level, according to Miss Barbara Kerch, supervisor of PE in the elementary schools.

PE Instructors Officiate
General chairman at the finals was Glen Hastings, Frohardt school PE instructor. Physical education instructors from 13 other elementary schools served as starters, timers and judges.

Both the girls' and boys' competition was divided into three groups according to age, weight and height. Ribbons were presented Monday by Principals Fred North of Washington school, Theodore Vrenick of Willson and Leland Bartley of Lake. Boys' ribbons were presented the following afternoon by Principals Owen Humphrey of Maryville and Dale Rea of Emerson. No official point standings were kept by judges, but overall consideration of the three days showed Webster and Frohardt schools tied for first in the elementary schools.

Plays — In Spanish By Harris Students

Two familiar children's stories might have sounded a bit strange to audiences who watched students in the first three grades at Harris school stage them in the form of play-ettes three times last week and again on Monday afternoon.

The first, second and third graders, all voluntary students of Miss Clara Funk, first grade teacher at the Madison grade school, presented "The Three Bears" and "Little Red Riding Hood" in Spanish.

Miss Funk, who began working informally with young students four years ago in this area, calls her efforts "a pioneer program which demonstrates children's enthusiasm in learning a second language."

The playettes, together with a rhyme and dialogues by first grade students, all in Spanish—were the end results of Miss Funk's efforts this year. They were combined in a two-part program presented for Harris school students, parents and friends of students.

The casts included Susan Lewis, Mary Jane Veider, Ronna Crook, Betty Kzulu, Linda Wilson and Linda Bonatt in "The Three Bears"; Judy Morgan, Patricia Abernathy and Debbie Holt serving as narrators; and Sherine Boyd, Paula Stevens, Sandy Mudrove, Bobby Allen and David Vance in "Little Red Riding Hood," with Debbie Falchett, Jackie Adams, Marie Champion, Rebecca Bevell and Elaine Taratjacio as narrators.

"The students work on an informal basis, and we emphasize speaking and hearing the language," Miss Funk said. She stressed that none of the work with the language is done during classroom hours. "The children come in voluntarily on their lunch periods."

Cat Startles Driver: Car Hits Trees, Posts

A pet cat, leaping from a box onto the lap of Mrs. Ruth Kinder, who was driving her car in the 2800 block of Edwardsville road at 10 a.m. today, caused her to lose control of the car, which went to the opposite side of the street, knocking down a small tree, a fence post, an upright railroad tie, another tree and a parked car. She escaped unhurt.

Police said minor damage was done to the parked auto, and that the front of the Kinder car was damaged.

Mrs. Kinder, of 1929 Rhodes avenue, Madison, was charged with failure to have her car under control and posted her driver's license as bond.

13 New Teaching Posts At Central Jr. High School

The score on 1961-62 expansion of the Granite City school district's faculty stands at 30 after the creation of 19 new positions by the school board Tuesday night. The total may grow in June.

New positions total five at Granite City high school — business education, English and girls' physical education teachers, a combination art-Spanish teacher and an additional guidance counselor.

A teacher of German is to be added at Coolidge Junior high along with 13 new faculty members at Central Junior high — five block (English and social studies) teachers, two mathematics instructors, two physical education teachers, a counselor, science teacher, industrial arts instructor and home economics teacher.

Two weeks ago, the board voted to add two teachers at Frohardt grade school, five and a half positions at Maryville grade school and three and a half positions at Wilson grade school. Six classrooms are being added at Maryville and four at Wilson, with two rooms created at Frohardt from the present dining room.

May Expand Driver Program

Action may be taken at the next meeting on hiring a second driver education teacher at Granite City high school, increasing from about 200 to 400 the number of students who can be taught to drive during the year. Much of the cost is reimbursed by the state, and a financial report on the program is to be submitted to the board June 13.

Study also is being given to whether a second new counselor position should be established at the Central school, where enrollment is to be doubled in the fall. The new GCIS English position was first recommended Tuesday night. Possibility of new positions at Mitchell and one at Nameoki also has been discussed.

GC School Borrowing May Be Cut To \$700,000 This Year

It is not certain yet, but the Granite City school district may be able to trim its borrowing from \$1,000,000 to \$700,000.

As the 1950-51 school year drew to an end and a year ago, educational fund tax anticipation warrants rose to the million mark, although \$100,000 of this amount was paid off before the year closed June 30.

The \$700,000 mark was reached Tuesday night, and Superintendent Harold M. Kaiser said there is a good chance that borrowing can be kept at this level for 1950-51.

Funds Expected

This contingent on the expected receipt of \$70,457 certified for immediate payment by the federal government under a \$83,943 Public Law 874 grant for current expenditures, due to the impact of pupils whose parents work at non-paying federal installations. If this and other anticipated funds should be delayed, another \$100,000 may be needed, he explained.

Borrowing began Feb. 14 with authorization of a \$200,000 tax warrant from the Granite City Trust and Savings Bank. Then on March 14, \$200,000 from the First Granite City National Bank was authorized. A third \$200,000 warrant from the Trust and Savings Bank was authorized in April and obtained a few days ago.

The latest warrant for \$100,000 will be obtained from the First National Bank. All the borrowing this year has been at 3 1/2% interest.

Enrollment Growth
Yearly borrowing because a major factor in school financing in the mid-1950s, and efforts to eliminate it over a period of several years have been thwarted by the rapid enrollment in-

Hospital Group Urges Visitors Observe Hours

The Employee Advisory Committee of St. Elizabeth Hospital at a recent meeting called on persons to become more aware of observing visiting hours, according to Sister Mary Thomas, assistant administrator. Visiting hours are 2 to 3 p.m. and 7 to 8 p.m. daily.

She said the group pointed out that abuse of regulations causes patients to suffer from the annoyance of constant traffic in hospital corridors and from the lack of rest resulting from frequent, curious visitors.

The employees stressed that the regulations are made for the welfare of the patient, and that visitors do much to help patients gain health, "but only if they know how to go about it."

The employees also felt that visitors often fail to realize the dangers of cross-infection they can pass on by sitting on a patient's bed, and felt that observance of rules could eliminate the hazards.

State Bill Cited
Spengler stressed that a decision be made Tuesday night, and he and Dr. Kaiser said the APTF local is the only group acting as bargaining agent for the teachers. It was noted that the reference to group insurance related to a state bill described as passed and on the governor's desk.

Huber, president last year said there is "no question" that the agreement was for two years. He said the teachers first asked that contract talks be deferred until September 1969 if there was no settlement that spring, and then went on strike though still under contract.

Spengler and Huber said they regard the agreement as a "good contract" for the teachers, and that it includes a raise each year.

The motion by Huber, seconded by Worthen, advised the local that with the two-year agreement, "such negotiations are not in order at this time, but that negotiations, if any be desired should be ruled on the termination of the present contract."

wanted it to be binding, but the state legislature rejected the idea. I received a letter from my last year, but none were from people in the Fifth Ward.

Stumm was challenged by Alderman Samuel Whitmer. "I was not going to say anything, but after Stumm's remarks I think I had better. When a majority of the people vote in favor of some thing, they are being blinded."

A majority said they wanted fluoridation. The highlight of the two-day convention will be a parade in Granite City on Sunday, June 4.

Stumm said that with over 14,000 votes cast in the election, he did not feel the 7000 in favor of fluoridation constituted a majority.

Roll Call Vote

In the roll call vote, those for preparedness for fluoridation resolution were Alderman Charles Meyer, Estill Von Schell, William Stumm, Joseph Weizer, Joseph Cavar and Ford Johnson. Against it were Norman Davis said he would have voted for fluoridation if the council vote had ended in a tie.

Whitmer, Mrs. Beline, Emerald Dales, Robert Gaughan and Weizer. Against, Norman Davis said he would have voted for fluoridation if the council vote had ended in a tie.

Earlier in the meeting, Dr. Vasiloff, an assistant professor at Southern Illinois University, stressed water fluoridation would reduce tooth decay by 60% at a cost of 10 to 15 cents a year for each individual.

He read a list of national organizations favoring water fluoridation and said a natlty fee professional individuals are opposed to it.

"Tooth" Decay Is Most Prevalent

"Tooth" decay is the most prevalent disease in the world. It is the only way to curb it is through fluoridation of public water supply. There are 45,000,000 persons in the U.S. drinking fluoridated water, and in Colorado Springs, where there is three times as much fluoride in the water as recommended, the rate of decay is low.

Dr. Vasiloff emphasized the safety of fluoridation and time fluoride is added to the city water.

Several aldermen, after the council session adjourned, commented that as far as they were concerned, the second defeat of the proposal made it a dead issue.

Contest Petition Study

A constituent of the aldermen is to meet with City Attorney William Beatty and study petitions filed in connection with contest of the aldermen election in the Seventh Ward in which Mrs. Gabrielle Beline was re-elected by 17 votes over James Kostoff.

The latest development Monday night was a petition of objections by Mrs. Beline. Kostoff had filed earlier a petition asking for a recount and an intervening petition also was filed by Edward Horman, a former alderman and defeated candidate in April.

In her petition of objection Mrs. Beline challenged the validity of the petition filed by Kostoff.

Mayor Names Committee. Mayor Davis said Wednesday he was naming Aldermen Paul Rutledge, Charles Meyer and Arthur Weizer to the committee, and Atty. Beatty is attempting to set the first meeting for Saturday morning.

Beatty told council members Monday night the committee probably would require one or two meetings before making a recommendation to the council on the action to be taken. Should a recount be undertaken, he suggested the mayor call a special meeting of the council.

In her objection petition, Mrs. Beline stated that Kostoff failed to allege any fraud or misconduct on the part of any election officials. The Kostoff voted erroneously in the April 4 election, going to the wrong precinct, and that his petition is not verified as required by state election laws.

He asked the council to refuse to act on the petition for reason it is insufficient in form and content to allege a basis for a contest.

Edwardsville 10 Fines

Two Granite City persons were assessed fines totaling \$44 in the court of Edwardsville Justice of the Peace Earl L. Vuagniaux, yesterday.

Mrs. Ethel Lenora Floyd, 1636 Wilson avenue, charged Ernest Floyd Jr., on May 21, with assault and battery. He was fined \$24.

over, I am hopeful that an order by state legislature will be worked out in 1963.

"It's a shame," the governor continued, "that your project could not have been begun years ago when land was cheaper."

Remembering that he was "new to the office of governor," he suggested that he would know more about the state's needs and fiscal demands, as well as their relative value to the people, in another six months.

"Horseshoe Lake has merit from a recreation, water resource and conservation standpoint, but I don't see how we can develop it in this biennium when we have so many other pressing financial problems," the governor concluded.

Strong Area Support

Henry D. Karandjich, chairman of the Horseshoe Lake Commission, opened the conference by calling the governor's veto to the numerous resolutions adopted by Illinois Metropolitan Area cities, as well as petitions signed by thousands of citizens, in support of the project.

In other brief talks, speakers included the following: Mayor Davis said, "This means much to our area and has vast potential. Years of effort have gone into it; all we need is the money."

Mayor Maers — "We have talked about Horseshoe Lake as a recreation area ever since I have been mayor of Madison—21 years—and it's time to do something about it. There will be great benefits to the people of Madison and St. Clair counties."

Mayor Lee — "We are not here as a political group, but as citizens. This would be a wonderful thing for the entire state. At the same time, I believe there is a money problem."

Port To Begin In Fall

Despite revenue bond legal requirements, economic rivalry from other parts of the nation and other problems, the Tri-City Regional Port District is to begin construction this fall of ultra-modern bulk cargo loading and storage facilities at the local harbor, Madison Rotary men were told yesterday.

The port development, which may reach \$30,000,000, can aid in starting a variety of industries to adjacent sites, Port Manager John Barron said. He was introduced by Harry Thebeau, program chairman.

Also to be featured at the new location are an added service of interior decorating assistance by Mrs. Betty Marler, who will visit homes of customers to aid them in the selection of furnishings and a new gift shop.

Mrs. Marler said a complete line of decorator items, such as pictures, clocks, and plaques, will be available for selection at the new store.

Woman Fractures Foot In Fall From Ladder

Mrs. Virginia Schroeder, 54 of 2207 East 24th street, fell from a ladder while working in her yard at 2:35 p.m. yesterday sustaining a fractured left foot. She was released after treatment at St. Elizabeth Hospital.

In other Wednesday mishaps, David Scaturro, nine-year-old son of Mr. and Mrs. Thomas Scaturro, 808 Third street, Venice, suffered a cut to his right leg while he was playing. Stitches were taken.

Christine Bormak, five-year-old daughter of Mr. and Mrs. Carl Bormak, 3502 Kirkpatrick avenue, received a cut to her right arm when it went through a storm door pane. Five stitches were taken.

Visits Carpet Mill. Chuck Friedman of Friedman's furniture and hardware store, Fifth street and Madison avenue, toured the Mohawk carpet mill, largest administrator in the world, at Greenville, Miss. He viewed films of the high-speed and studied carpeting processes and qualities.

MORE ABOUT

Raymond Rogers, mayor of Edwardsville

"A recreation area at Horseshoe Lake will be a boon to the whole area; it will be a disgrace not to carry out this project."

David Johnston, representing Mayor Alvin Fields, East St. Louis—"Horseshoe Lake serves as a reservoir for runoff water, and if this project is not undertaken there will be serious drainage problems as well as economic losses."

Herbert Baum, president of the Clark County Anglers Association and representative of the mayor of Belleville—"The 3800-acre problem of our association and their families are strongly supporting this project."

Herbert H. Esterlein, commission member and representative of the mayor of Collinsville—"I am proud to be here as a member of this commission. If the project is not carried out, that whole area will be blighted."

Legislative Viewpoints. State Representative Ralph Smith of East Alton, formerly of Granite City, told Gov. Kerney that Horseshoe Lake site is a regional recreation site "many years ago."

"It would not be possible to spend the full \$35 million in one biennium, developing the stages with lesser drain on the state treasury would be satisfactory," Rep. Smith said.

State Rep. Lloyd "Curly" Harris, Granite City, pointed out that the Horseshoe Lake Commission has been active for six years "without any appropriations and at no expense to the state. What this commission proposed will be of inestimable benefit to the entire metropolitan area, serving two states and bringing in revenue for Illinois."

Rep. Harris said he would like to see the bill passed. "I should we kill the bill now?" he asked.

It was then that Gov. Kerney suggested holding the bill up until next month "when we can see what the fiscal outlook is. I could make all of you my friends by telling you to go ahead," he added, "but I would just be kidding."

Senator James O. Monroe.

Port To Begin In Fall

Despite revenue bond legal requirements, economic rivalry from other parts of the nation and other problems, the Tri-City Regional Port District is to begin construction this fall of ultra-modern bulk cargo loading and storage facilities at the local harbor, Madison Rotary men were told yesterday.

The port development, which may reach \$30,000,000, can aid in starting a variety of industries to adjacent sites, Port Manager John Barron said. He was introduced by Harry Thebeau, program chairman.

Also to be featured at the new location are an added service of interior decorating assistance by Mrs. Betty Marler, who will visit homes of customers to aid them in the selection of furnishings and a new gift shop.

Mrs. Marler said a complete line of decorator items, such as pictures, clocks, and plaques, will be available for selection at the new store.

MOORE ABOUT SIU Reports

phase without slighting others. The span of control of the mayor is limited. By reducing the administrative departments to six, each under the direction of a competent superintendent, the day-to-day operations of the city are placed in the hands of a framework easily understood and administered by the mayor.

Pinpoint Responsibility

"It is further believed that the overall organization proposed provides a clear division of assignments and authority relationships that will aid in pinpointing responsibility and clarifying who or what agency in the city government can be held accountable for given actions or inaction. This classification of function and authority makes it easier for the citizen to perform his role in keeping government accountable and responsible — a first requisite for viable democratic government."

Preparation for the report were made about eight months ago, originally intended to include all governmental agencies in the city. However, Dr. Mann pointed out the actual work was not started until late December and there was not the proper mandate to allow his staff complete freedom to investigate the internal management practices of the other agencies.

The report on the city government, with major proposals and conclusions covers the following: Executive leadership and control, the city council, city clerk, city attorney, personnel, financial planning and zoning with its

board of appeals, police department, fire department, civil defense, board of fire and police commissioners, police magistrate, police and firemen's pension boards, building, building inspection, streets and sewers, motor fuel tax programs, sanitation, library board, housing authority, engineer examining board and park district.

More Planning Necessary

In strengthening the office of mayor, the report calls for more planning of work. "The work of the city gets done and generally gets done fairly well. The mayor should frequently drive around with his department heads who operate in the field to familiarize himself with their problems and to gain the knowledge that comes from personal inspections."

"The mayor should hold staff meetings in order to coordinate the work of the department heads and to review the council agenda, to determine in a continuous manner the informal views of operating and staff officials on current city problems and activities about which the mayor must give policy direction and administrative supervision."

"Regular inspections, frequent visiting of operating officials in the field and regular meetings with the staff also provide the mayor with additional information about what is on the 'colleagues' mind of the people of Granite City."

"There are, of course, problems in effecting this type of relationship with the operating departments. One is that there are too many officials reporting directly to the mayor.

"The mayor cannot spend the time required to meet regularly with each official. Another problem is that in the present department head, the superintendent of streets is an elected official

and as such is largely free of control by the mayor.

"If the mayor had control over only six appointive department heads as recommended, he would be in a much better position to exercise administrative control and leadership."

Administrative Reports Lacking

"Another aspect of administrative control over the operating departments which is entirely lacking (except in the case of finances) is a system of administrative reports."

"Reports on a monthly basis with special subject reports in between as required are a necessary management tool."

"Monthly reports should include whatever operating data will be helpful to the mayor not only for gauging service levels and efficiency of operations, but which will also provide vital information for preparing and substantiating budget estimates."

"Such information as the number of manholes or feet of sewer cleaned per day, the miles of streets surfaced and the number of manholes involved are important to an understanding of these services."

"There is no information on the number of garbage and refuse pickups per hour, the number of miles driven per day, the volume of material picked up or the exact collection routes."

"The city cannot afford to move along on hit-or-miss procedures for long. The city is fortunate that it can carry a surplus sufficient to avoid the cost of tax anticipation warrants, but it should prepare itself for the time — perhaps the year — when funds are much tighter."

"It is the mayor's job to make the necessary investigations in the departments, to require the administrative reports and to insist upon the installation of more efficient procedures."

Boy, 12, Hurts Bottle Through Windshield

A young boy, who was riding in the rear of a convertible coupe and hurled a soda bottle through the windshield of a concrete mixer truck Monday afternoon, was taken into custody by police and referred to juvenile authorities.

The officer, through a description of the car given by the truck driver, apprehended two youths in the car at 29th and State streets, and were told the boy who hurled the bottle lived in the 2000 block of Lee avenue.

The officers took the 12-year-old boy in custody and he was turned over to the Coordinated Youth Services office yesterday.

The Trucker, William Eaker,

2813 Madison avenue, who was showered with shattered glass but escaped injury, told police the incident occurred in the 1900 block of Edwardsville road where he was traveling east and the convertible coupe was going west. He gave police the Missouri license number off the car and it was traced to Lloyd Maury Rolla, who was in the car when it was stopped a short time later at 29th and State streets. No charges were placed against the driver.

Eaker is a driver for the Paul Seebold Concrete Co.

It pays to advertise

Clarence Anderson, Edwardsville Intelligencer — "Influence of a group like this would be large and is needed to get the job done."

Jess Wilson, Wood River Journal — "Horseshoe Lake and Southern Illinois University are examples of area cooperation."

C. E. Townsend, Granite City Press-Record — "Without taking away the individual identity of our communities, an organization would reflect the thinking of the Illinois Metropolitan Area. We are going to grow, but the growth will be better, faster and more orderly if their is planning and coordination. We have to have a voice—a voice vehicle for expressing the common interests and viewpoints of the communities. The proposed airport is an example; unless planning is carried out locally, it will be done here by St. Louisans."

Zoning, Industry Needed — Francis Kaur, Alton GAC manager — "Industrial develop-

ment and county zoning are essential."

Clifford Peake, Belleville C. of C. manager — "It's high time we get together and have an association on the All-American side of the river."

James Reed, East St. Louis C. of C. manager — "Greater influence must be brought to bear on ill-conceived state legislation affecting the periphery cities."

Albert Paul, Edwardsville C. of C. manager — "We have to have an organization and a plan, more than just coming together."

Loyal Palmer, Wood River C. of C. manager — "It is important that we pull together."

Harlan Dobry, Tri-Cities C. of C. manager — "We have not taken our voice on legislative battles, zoning, industrial development and other issues."

TELEPHONE TALK

by R. A. Pelster, Manager, Granite City, Illinois

RAIN AND TELEPHONE SERVICE

Heavy rain and storms such as we had in the Quad-City area during the past month often cause a temporary interference in telephone service. When a great amount of moisture collects inside a telephone cable the circuits are often shorted or grounded.

We have been able to reduce this interference considerably by applying air pressure to telephone cables. The constant air pressure keeps the telephone cable dry and prevents moisture from absorbing in the cable.

Most of our underground cables now have air pressurization. We are now in the process of applying air pressure to our overhead cables so as to further reduce the damage to telephone service caused by wet weather.

Preventive maintenance such as this allows us to provide better telephone service all the time.

TELEPHONES OF THE FUTURE

The other day I was having lunch with some friends and we got to talking about how much the telephone has changed in the last few years. We talked about the development of color phones, wall phones and the latest one — the Princess — the first compact phone.

This conversation reminded me of some of the ideas for new kinds of telephones and communications services we're working on now. Some of these ideas will never leave the drawing board. Others will fall by the wayside during the test stage. And some, of course, will be successful — and will eventually be available for your use.

For instance, how would you like a phone with the dial right in the receiver? This phone is called the Dial-in-Hand phone because it has everything you need to make a call right in the receiver, and it can be held in one hand. While the Picturephone has already been successfully tested, it will be quite a while before it is available to the public.

But here's a new phone you may have in this, not too distant future. It's a small new wall phone called the Slimphone. The Slimphone is trim, not much wider than a Princess phone. It should come in handy for the kitchen and other rooms because it doesn't take up much space.

These are just a few — a sampling — of new kinds of telephones and telephone services we're working on for the future. But even today we enjoy telephone services most of us never dreamed possible just 10 years ago.

Call by number. It's twice as fast.

Tavern 'Show Cause' Hearing On June 1

A hearing is set for June 1 for George Nelson of Granite City, whose county liquor license for the operation of George's Place, formerly Big Oaks tavern on Route 111, was suspended last week. The suspension was handed down by County Liquor Commissioner Gus Haller based on information gathered by Richard Allen, a special investigator in the office of State's Atty. Dick H. Mudge Jr., who said he was solicited by "waitresses" recently when he stopped by the tavern on a routine investigation. Allen told the Press-Record there were three "waitresses" in the place. The hearing is for Nelson to "show cause" why his county liquor license should not be revoked on evidence gathered by Allen.

Trend To Greater Traffic Safety Being Reversed This Year

News articles of death on the highway of Quad-Cityans or persons killed here are becoming too numerous—seven of the past nine weeks have brought with them at least one traffic fatality and sometimes more. The casualty rate must be reduced, or 1961 will bring one of the worst records in history.

With two auto deaths in February, two in March, six in April and three during the first three weeks of May, the year's toll was eight ahead of the similar period in 1960. The rate was ahead of any of the past three years, and on a par with those of 1954, 1956 and 1957, when there were 12-month totals ranging from 27 to 44 fatalities. Increased traffic may be offsetting the safety value of street and highway widenings and improvements, but the fact remains that residents here and throughout Illinois achieved significant safety advances during the past several years. And it is also true that this trend is showing signs of reversing itself both here and elsewhere in 1961.

We urge motorists to develop a fresh realization that motor vehicles are a potential deadly weapon, endangering themselves, their loved ones and the public. The record of a traffic death in nearly every week of the year must be reduced.

The Silent Troublemaker

(Waverly, Ill., Journal)

Who is a troublemaker? He is the silent one. He never speaks up on issues. He never shows off in the letter column of his local newspaper. He never writes his Congressman. He is quiet as a clam.

And in his wish to offend nobody he offends democracy. How could democracy succeed—if all of us, like this one, withheld our opinions, our ideas, our criticisms?

Voting on election day is only part of a citizen's duty. Active, day-by-day participation in government, in society, in business association, is a responsibility for each and every one of us. The silent troublemaker fails to understand this.

In his worship of "law and order," he never dares to question an oppressive law, never distinguishes "order" from stagnation. He is the apostle of social decay, not democracy.

"Smoking often is a nervous habit. Some persons claim the more they fume, the less they fret."—Becher-Hill.

Widespread Death, Illness Due To Accidental Poisoning

Local druggists deserve commendation for calling attention to the harmful aspect of their own products. With 500 youngsters dying yearly due to overdoses of medicines and other liquids and substances found about the home, and 600,000 others suffering lesser effects, greater public awareness of the danger is needed.

The series of talks being made locally points out that virtually any material—even if recommended for children in limited quantities—can cause illness, disability or death if a child consumes it in large amounts. Many, in fact, have odors and tastes especially attractive to tots.

Close supervision of youngsters, instruction when they are old enough to understand and looking of poisonous substances are recommended. Children's health and very lives may depend upon it.

Poppy Sales Aid Disabled Veterans, Dependents, Survivors Of War Dead

Sale of artificial poppies tomorrow and Saturday by local American Legion and Veterans of Foreign Wars posts and units will provide funds for the disabled veterans who have assembled them, give meaning to their occupational therapy and finance work of the sponsoring organizations in aiding the disabled, their families and the survivors of war dead.

As the Legion and VFW programs indicate, war's suffering and sacrifice have not ended for many of the participants. With the multiple benefits to be derived, widespread support through poppy purchases seems assured again this year.

All Have An Interest In Guarding Safety Of Mail

Destruction of mail would seem to be a rare occurrence, but it has been happening often in Granite City. While possibly intended as a prank, it is a federal offense and serious enough to warrant the cooperation of all in identifying those responsible and bringing the practice to a halt.

More senseless even than robbery of the mail, setting fire to the contents of mailboxes serves only to destroy. Whether containing letters to relatives or friends, checks, greeting cards, money or a variety of important messages, it is essential that mail arrive promptly and safely, instead of being reduced to ashes before it can reach its destination.

Students Need Detailed Advice On Varied Career Opportunities

Employment of guidance counselors in the Venice and Madison school districts and expansion of the Granite City school counseling staff brings to mind recent recommendations of the North Central Association of Colleges and Secondary Schools, which accredits school programs. This expansion should afford greater opportunity for the schools to aid students in charting their life careers.

Partially due to North Central recommendations, and because of local recognition of the need for higher standards, counseling has been emphasized and instruction generally "beefed up," with more courses offered and more expected of students within each course. The fuller school programs represent an effort to help young Americans become better equipped to meet the growing challenges of the future.

In this connection, it is important that graduates select the vocations for which they are best fitted, and that there be a sufficient supply for the various fields of endeavor vital to our civilization. Along with aptitude testing and general advice and information, school guidance counselors should find it possible to hold a thorough discussion of each potential vocation while meeting with students individually or in small groups.

The idea of more detailed guidance arises from an Illinois Metropolitan Area meeting of school counselors and newspapermen on the lack of journalism graduates to fill newspaper jobs, but it applies equally to other fields. With the growth in counseling staffs, more specific vocational information can be provided for students.

Mitchell Kiwanis Club Seeks Baseball Uniforms

The Mitchell Kiwanis Club Monday discussed the need for additional uniforms for new entries in the Mitchell-Khoury League, desiring to study means of obtaining funds to provide the suits.

The season gets underway next month, following the end of school, with six teams expected to participate. The Kiwanians are providing insurance for the teams at a cost of \$2.50 each.

Ten members attended the meeting held at Smith Cafe. President Thomas Smith presided. One guest, Roy Bouillon, of Edwardsville, was present. Members of the club attended an inter-club meeting at Collinsville last night.

\$26,359,101 Property Taxes In Madison County This Year

Property taxes slated for collection in Madison county for this year total \$26,359,101, records in the office of Miss Edwella Hotz, county clerk, showed this week.

The total was determined in submitting to the Illinois Department of Revenue the annual abstract of valuations, levies, tax rates and tax extensions. Taxes originating in 1960 and based on 1960 levies and assessments are collected in 1961.

103 Taxing Bodies

The total represents slightly over three times the Quad-City tax bill of \$8,613,378. Of the 103 taxing bodies in Madison county, 20 are located wholly or partially in the Quad-City area.

Slicing of the county's \$26,359,101 tax bill into 403 cents of each dollar going to schools, 15 cents to cities, seven cents to the county government, 6½ to townships and township road and bridge funds, 3½ to sanitary districts, one to parks, 1½ to a miscellaneous grouping—an airport, township hospital, street lighting districts and fire protection districts—plus five cents for back taxes.

A breakdown of the 20 taxing bodies at least partly within the Quad-City and the 83 elsewhere in the county follows:

25 Cities, 22 Five Districts, Cities, three and 22, total of 23; townships, four and 20, total of 24; school districts, four and 16, total of 20; fire districts, three and 19, total of 22; park districts, two and one, total of three; sanitary districts, one and three, total of four; street lighting districts, two and none, total of two; the county government; an airport district, none and one, total of one; and a township hospital, none and one, total of one.

The listing includes the cities of Granite City, Madison and Venice; Granite City, Venice, Nantah and Chouteau townships; Granite City, Madison, Venice and Collinsville school districts; Mitchell, Long Lake and State Park fire districts; Granite City and Venice park districts; East Side Levee and Sanitary district; State Park and Miracle Manor-Bellemeor Place street lighting districts; and the county government.

The airport in Madison county is the Civic Memorial airport in the Alton area, and the hospital tax district is in Wood River township.

25 YEARS AGO

The following items were taken from the files of the Granite City Press-Record

Nearly 100 taxpayers, many with unpaid taxes accumulated against their property, met in the city hall Tuesday and endorsed a program which is calculated to restore "orphan property" to the tax rolls and increase tax collections by making it easier for delinquents to regain their paid-up status. Acting solely as a committee of private citizens who are interested in the \$500,000 general tax delinquency they adopted measures to pay the bills on a monthly basis.

An earnest desire on the part of businessmen for regulatory ordinances similar in effect and operation to the old Occupational Tax of some years ago is growing rapidly in this city, it was announced Monday night at a meeting of the city council, following adoption of an ordinance licensing peddlers. This was the third measure of its kind passed by the city within the last few weeks. The first two, which regulated barber shops and taxicabs, were adopted at the instance of persons engaged in those lines of business.

Lucretia Bair, student at Community high school who won the state and national xylophone championship this month, was successful in her preliminary audition Monday in New York for the Major Bowes Amateur Hour. She will undergo her final audition tomorrow. Miss Bair's accompanist is a local student, Miss Elvira Arboast.

E. W. Hoeh, supervisor of WPA work being done on Madison streets and alleys, appeared at the village board meeting Tuesday and submitted a report on progress of work to date. His force consists of 138 men and approximately \$46,000 has been paid in wages to those working on the project. A total amount of \$102,000 was allocated for the project.

Wilson Park swimming pool will open June 6 with a daily schedule, and new equipment in use. The park board purchased two water elephants that will be anchored in shallow water.

Ralph Frohardt is again in charge of the park's summer program and will be assisted by Walter Klein, who was employed to supervise the tennis courts and help manage the softball league. Others employed by the board are Lorraine Carls and Arlene Jones, girls' locker room attendants; David Hodge, boys' locker room attendant and Cloyd Zamm, chief life guard. Park watchmen are to be George Durbin, W. P. Wilson and Lester Whaling.

Congressman Edwin M. Shafer has been advised by the Treasury that administrative action has been taken to adjust specifications and to acquire title to the site for the Madison post office building.

Chief Harry Hartman, feeling that officers in the Madison County Active Police Officers' Association ought to be passed around, declined to gain acceptance of the office of president and Joseph Stephan of Alton was elected. Other officers from the area are E. O. Jeff, Granite City, vice-president; Ralph O. Johns, Madison, secretary; and Ray Bachman, Madison, board of directors.

Attorney Fred P. Schuman of this city, who is district WPA compensation officer will be one of the district and state WPA officials who will give a series of talks on radio station WTMV on the procedure and development of the federal program beginning Monday.

Two objections against the construction of the overhead viaduct across the railroad tracks in Venice still remain unsettled and the hearing before the Illinois Commerce Commission yesterday in Springfield was again continued for another two weeks to give state highway division officials an opportunity to further negotiate rather than force the issue before the commerce commission.

Corporations still objecting are the East St. Louis and Interurban Water Co. and Western Union Telegraph Co.

Miss Kathryn Kennedy and Miss Gertrude Thomas, school board stenographers, were required for the coming year, it was decided at a meeting Monday. They will receive a \$75 monthly salary.

The Junior Service League met Monday to make plans for the annual boat excursion. On the steamer President, those present were Miss Kathryn Bergman, Miss Frances Behnemann, Miss Th. Corey, Miss Dawson, Miss Agnes Enos, Mrs. William Enos, Miss Edna Holthouser, Miss June Homan, Miss Mary Hopkins, Miss Vivian Jones, Mrs. Donald Lauer, Mrs. Harry Lindhorst, Miss Virginia Lindsey, Mrs. Garland, Mrs. Sam Meyer, Miss Helen Meyer, Miss Margaret Lyons, Miss Elizabeth Marshall, Miss Frankie McCauley, Miss Helen Miller, Miss Helen Morgan, Miss Selma Nelson, Miss Mary Schooley, Miss Rose Marie Enos, Mrs. Rhea William and Mrs. J. Accidental Verdict In Death Of John Mowery

A coroner's jury Tuesday returned a verdict of accidental death in the inquest for John Mowery, 67, of 2030 Alexander street, who died May 10 of shock and internal injuries sustained when he was struck the previous night by an auto while walking on State Route 162 near the south intersection of East 23rd street.

The inquest, conducted by Deputy Coroner Francis Lahey, heard testimony from Granite City Police Officer George Galas Jr., who stated the car was driven by Wesley W. Keiser, 47, of Mt. Olive. Galas said Keiser told him following the accident that he saw a car in front of him move suddenly to the left and go into a skid and then saw the man in the middle of the roadway. Keiser told Galas that he tried to avert his car to avoid striking the pedestrian, but did not see him in time.

Heart-McAtee, Mercer-Pocahontas Games On Sunday's Inter-City Card

Hoping to find a "stopper" somewhere among the members of its pitching staff, Granite City Sacred Heart will host the Blue division leader in a Southwest-ern Illinois Inter-City Baseball league game at 2:30 p.m. Sunday in Wilson Park.

The Hearts, whose three-game losing streak is matched only by Maryville and Carpenter, have lost their last two outings by sizeable margins—a total of 33 runs—with six pitchers toiling unsuccessfully.

Leading the Blue loop—not an uncommon position for them over the past 10 years—are the McAtee Glasmen of East St. Louis.

Their margin is a slim one, however, and a Heart victory would increase the chances of the division race tightening up even more.

One-Half Game Lead McAtee leads Sacred Heart, Poca-hontas, Pocahontas and White City—all with 2-2 records—by only one-half game.

The defending league champion Mercer's will tangle with

the Braves in Pocahontas, Al-ways a dangerous club when it is swinging the bat. Mercer has had pitching troubles, too, this spring. The team has given up 23 runs in four games, while scoring 24 itself.

But the Hearts have been able to score at a five-run-per-game average so far, while the opposition has averaged almost 15 per contest. By way of contrast, the undefeated Red division leading Moose Club of East St. Louis has scored 71 runs and given up but 14 in four outings.

White City, the third Blue division team currently capable of making itself felt among the leaders, will even division bound-aries to play Troy's Redbirds at home.

Moose Club, unless its all-out assault on league scoring records is due for a slow down, should make it five wins in a row Sunday at Jones Park in East St. Louis when 0-3 Maryville calls Collinville's Boosters, beaten only by Mercer's and one game off the Moose pace, round out the full Sunday schedule with a game in Carpenter, a team still looking for win No. 1.

Meet Here Tomorrow Everywhere in the 10-day league has been ruled out at least once this spring, and make-up games on next Tuesday, Memorial Day, are to be arranged when league representatives get

Entries will close Wednesday, June 7, at 8 a. m. They should be mailed to Mervin A. Clark, 521 North 14th street, St. Louis. Entry fee is \$2.

Hampton-Led Flyers Favored To Cop Southwestern Track Title Friday

With Alton high school's squad crippled by injuries to several key competitors, the East St. Louis Flyers will be title favorites at tomorrow evening's Southwestern conference track meet at Parsons Field in East St. Louis.

Entrants will be the Flyers' Warriors, fresh from their winning effort in the 120-yard high hurdles last week at Champaign.

Hampton was the only event winner from this area, being clocked in 14.6. His best time in the "highs" this season is 14.5, while the SWC record is 14.9.

3 Marks in Danger

A definite threat as a record breaker, Hampton could be joined by Edwardsville's Tony Penelton in the high jump and Alton John Trowbridge in the 800-yard run.

Penelton finished second in the IHSA state finals, clearing the bar at 6-3, and had an earlier jump of 6-3 1/4. Trowbridge, not among the top finishers at Champaign, has been clocked under two minutes twice this season. The half-mile conference record is 2:00.8.

East St. Louis' 880-yard and mile relay teams, under ideal conditions, could crack both existing records. Most other marks appear to be safe for another year.

High jump — 6-2 1/4 — Marnie Jackson (Edwardsville) 1955.
Broad jump — 23-3 1/4 — John Kewo (Madison) 1940.
Pole vault — 12-5 1/4 — Mike Hunter (Alton) 1959.
Shot put — 56-4 — Bob Richardson (Alton) 1959.
Discus — 170-10 — Cloyd Webb (St. Louis) 1959.

'B' Loop Openers To Modern Furnace, Knights Of Columbus

Modern Furnace and the Knights of Columbus scored victories in opening games of the Granite City park district's Class B Softball league Tuesday night at Wilson Park.

Modern Furnace topped Modern Exterminators 9-4 in the nightcap, scoring five runs in a decisive fifth inning, after the K of C had humbled Granite City Steel Credit Union 20-4 in the opener, a game which went just five innings.

The Knights of Columbus managed just 10 hits, but two Credit Union pitchers, Mack and George Cook, gave up 14 bases on balls between them and the defense committed five errors. Mike Schuler limited the losers to three hits, one a long triple by Credit Union Catcher Jim Reiter, and the K of C defense was charged with only one miscue. Jack Treitschuh worked behind the plate for the winners, who broke the game open with a 12-run third frame.

Jerry Voloski tossed a neat four-hitter at the Exterminators. Modern Furnace picked up six hits and played errorless softball in the field. The losers were charged with five bobbles. Carl Macdon was the losing pitcher. His batterymate was Clayton Harrison, while Rudy Diak were the equipment for Modern Furnace.

Seeks New Means To Finance Juvenile Home

The fate of the proposed Madison county juvenile detention home remains uncertain with plans routed back to the detention home committee where they began, for further study.

Action came Monday at a wardensville during a meeting of the home committee, the new building committee and Architect Samuel E. Sanner.

The board of supervisors the previous Wednesday rejected 19 bids, claiming the low bid was some \$130,000 above the original estimate of \$200,000.

Officials will discuss whether the original plans should be followed through additional means of financing or to scale down present plans to conform with the estimate.

In seeking sources of additional financing, the officials heard a proposal from a Chicago firm which would issue revenue bonds through a building committee, to be created by resolution of the board of supervisors.

Under the plan, the building, after it is built, would be leased to the county by the commission and the county would pay rent from sales tax funds earmarked for the project.

Upon retirement of the bonds, title to the structure would revert to the county. Cost of handling the proposal would be \$200,000, a one per cent fee. No tax increase would result.

The possibility of a referendum is to be considered, but is thought to be impractical, since a public vote would cost from \$30,000 to \$40,000, with a possibility of the measure failing.

Funds for the detention home stand at \$101,000, which represents 60% of the county's half-cent sales tax revenues.

City Boosts Sewer Fee For Laundromats

An amendment to the city's sanitary sewer rental ordinance for the Nameoki area system, boosting the charge for laundromats, was approved Monday night by Granite City Council members, who accepted a recommendation by the Sewer committee to reduce the fee originally proposed.

Laundromat operators with installations on the Nameoki sanitary sewer system will continue to pay the \$3.50 monthly charge for a business place, and there will be an additional charge of 50 cents for each machine.

The original proposal, which has been under consideration for about two months, was to boost the business place rental fee to \$10 plus \$2.50 a month for every machine over four.

Alderman Frank Vesel, chairman of the Sewer committee, said he had been told by laundromat operators that the original proposal would put them out of business. A meeting of the committee and businessmen was held to work out the compromise.

A nearby worker, Ronald Sherman, 23, of 4306 Kirkpatrick homes, suffered slight injury and was treated for a small cut over his left eye and puncture wounds on the nose. He was released after x-rays.

A plant spokesman said the glass covering on the air gauge was about six inches in diameter.

Lengthy Council Debate On Benton St. Stop Sign

Aldermanic courtesy prevailed at Monday night's session of the Granite City council.

Despite an appeal for an expert traffic study before erecting a stop sign on Benton street at 22nd street, the council adopted an ordinance to set the sign.

Alderman Charles Meyer pointed out Benton street was the only full-length, south-north thoroughfare in the city west of Madison avenue, and that he had asked the American Automobile Association to survey the intersection without charge to the city and submit a recommendation.

streets that are slowing traffic and I don't see how anyone could speed in the 2100 block which has a narrow pavement and cars parked on both sides.

"I've studied the police accident frequency map," Meyer continued, "and it shows only three accidents there last year and one this year."

LeMaster said he knew there was a number of accidents at the intersection, but did not quote any figures. He added that a woman is crippled and a boy was badly hurt in accidents there.

Meyer replied the police map which shows actual traffic records, failed to indicate a need for an additional stop and he asked for deferment. There was no second request for the ordinance to be deferred.

Alderman Mrs. Gabrielle Betine commented that council members were familiar with their wards and where stop signs should go to prevent accidents.

But, Alderman Samuel Whitmer pointed out an AAA survey at 23rd and Iowa streets, scene of many serious accidents and over 50 in a matter of a few months, had resulted in relocated stop signs and a halt to accidents. "There hasn't been an accident there since the stop signs were taken off 23rd street and put on Iowa street several months ago."

Installation of the Benton street stop sign was approved with only Meyer and Alderman Paul Rutledge voting against it.

Motorist In Crash Faces Charge

Philip J. Henze, 38, of Fort Worth, Tex., was arrested early Wednesday on a charge of careless driving in the 1700 block of Olive street where police said his auto struck a parked car belonging to Harold Skalky, 1725 Olive street, knocking it across the street and into a tree.

Henze, who was released on \$11 cash bail, said he was driving away from the curb when his foot slipped off the brake, causing the accident. No injuries were listed.

Brings Memorial Day Message

Originator Of Post 307 Memorial Here For Visit

The originator of the miniature Memorial Cemetery and replica of the Tomb of the Unknown Soldier, set up each year on the lawn of the Venice-Madison American Legion Post 307 Home, is here for a visit and arrived in time to see it set up again for Memorial Day.

He is W. E. George of Phoenix, Ariz., a retired grocer and former commander of Post 307, who is visiting his brother, Henry A. George at 2922 Benton street.

George expressed his gratitude that the post continues the tradition with the White Crosses paying tribute to veterans who gave their lives in wars.

"You who have loved ones that have passed away in wars, should be here of Venice or Madison, will find his name on one of the crosses," George said.

Large Windows Broken

A report was received Monday night by Granite City police that vandals had broken two large plate glass windows in a street building at 2737 Denver street.

Traffic Charge

A charge of failing to observe a stop sign at 21st and State streets was placed against Ronald Richards, 31, of Nesh, Ill., who was arrested early Tuesday. He posted \$11 cash bail.

Council Oks Church Building Purchase By Library Board

Council approval was given Monday night for the Granite City public library board to buy a vacant church building adjacent to the library building for \$20,000.

The building is to be used for expansion of the library facilities and also to provide garage space for the library's bookmobile.

During the debate the aldermen fired a number of questions at Alderman Mrs. Gabrielle Beaudet, a member of the library board, who was assisted by City Judge Fred P. Schuman, also a member of the board.

Alderman Casner Skubish, a former library board member, pointed out the library has a \$38,000 balance and people should know when tax bills go up, not the city council but the library board.

Plans 2nd Bookmobile It was explained by Schuman that the library has been building the surplus for several years in order to buy a second bookmobile to serve the expanding residential area.

Other aldermen called for the library's expansion in the Nameoki area, and Alderman Charles Meyer said that the city has been planning to offer the library the present Nameoki road fire house should a new station be erected in the Nameoki area.

In answer, Judge Schuman pointed out that more personnel would be required to staff another building, while a minimum staff increase would be needed should the downtown building be expanded and a second bookmobile bought to serve the residential area.

Alderman Samuel Whitner said the library's annual report shows a substantial gain in circulation and that 47% is handled by the bookmobile, indicating service to residential areas and schools. "When they get the second bookmobile, the service will be improved."

When asked to speak to the council, Judge Schuman first invited all council members to visit the library and see the operations and improvements to the building. "The entire building is being utilized, from the basement to the second floor rooms. You'll see that we do need more space," the board member said.

He added that the board was ready to buy the second bookmobile last year, but held up on the purchase at the request of the council in its effort to reduce taxes.

Price Negotiated Judge Schuman stressed the urgency in acquiring the property now, since other parties are interested. He said that in dealings with the church board headed by Lorton George, the

library board was able to reduce the original asking price of \$22,500. He explained the library board could legally set its tax levy at \$180,000 to \$190,000 but chose to operate on a \$67,000 to \$70,000 budget. However, the members decided to ask the council for the additional \$20,000 to buy the building.

An estimate of an added 15 or 20 cents to each tax bill was given for the \$20,000 purchase, and Schuman asked the levy be included in the 1961 tax program.

The library building purchase resolution was approved by a vote of 14-to-2, with Alderman Walter Norn and Samuel Skubish dissenting.

The library's new budget of \$104,335 includes the purchase of the building and a second bookmobile and the adding of one person to the staff. It does not include any wage increases.

The new budget is up \$32,380 over last year's \$71,955 budget. During the 1960-61 fiscal year amounted to \$63,161, and the library ended the year with a balance of \$38,512 balance, of which \$18,135 has been accumulating for the second bookmobile.

Venice Committee To Study Next Pollution Steps

Rejection of a \$3200 federal request submitted by the city of Venice for a study of pollution statement will be referred to the sanitation committee when new aldermanic committees are appointed for the 1961-62 year, Mayor John E. Lee has reported.

The new fiscal year began May 1, and committees are expected to be named at one of the June meetings. The fund allocation was authorized by the council Jan. 20, and the rejection by U. S. Housing and Home Finance Agency officials in Chicago was announced at the May 19 council meeting.

Dr. Lee says the council must determine whether the city should proceed on its own to abate Venice pollution; act jointly with the city of Madison in establishing sewage treatment facilities; or delegate pollution abatement for the Venice area to the East Side Levee and Sanitary district.

It was believed that the engineering survey which was the goal of the \$3200 request would have helped the city officials in choosing between the three courses.

However, J. P. Harris, acting for HHFA Regional Administrator John P. McCollum, ruled that the city would have to propose a definite treatment project for completion within three to five years in order to seek such funds. He noted that survey funds have been advanced to the Venice district.

\$375,000 Proposal Venice's application outlined a \$375,000 project with a March 15, 1962, target date for construction.

The city proposed a sewage interceptor structure, pumping station, force main and primary sewage treatment facilities, estimated to cost \$230,000; equipment for the facilities, \$68,000; land and right-of-way, \$8,000; preliminary plans, \$2,000; final plans, \$11,700; supervision of construction, \$9,100; and legal, administrative and contingent costs, \$44,400.

When the application was authorized, Mayor Lee said approval was uncertain but that the fee it is necessary to find out which way is most economical to the city of Venice, so that the people get all they pay for and do not pay for something they are not going to get.

GC Council Threatens To Halt Subdivider

The usual threat was made Monday night by Granite City council members who are seeking to require a subdivider to pave a 300-foot connecting road way between Terminal avenue outside the Glenview subdivision and Victory drive.

City Atty. William Beatty was instructed to determine if any building permits issued for the Glenview subdivision could be cancelled until the roadway is improved. The attorney also was told to contact the subdivider, A. R. Cooper, to determine what he intends to do.

Alderman Walter Norn and Estill Von Schmittou said agreements had been reached with Cooper during meetings of the Board of Local Improvements to consider expansion of the Glenview subdivision.

Atty. Beatty said he did not attend all of the meetings and did not know exactly what was included in the verbal agreements.

Alderman Casner Skubish, who insisted the connecting roadway be paved, said he recalled the paving was required by the city before it would agree to permit the next development of the subdivision. He pointed out the roadway is virtually impassable and that it is needed to provide a second entrance-exit for the heavily populated area.

The 300-foot stretch of roadway is to be improved for all-weather conditions, but the aldermen were unable to determine if it is to be rock or asphalt. Since the roadway is outside the subdivision, it is not necessary for it to be paved with concrete.

Alderman Frank Vesel asked the Board of Local Improvements, Street committee and city engineer to study the intersection of Wabash avenue and Foon road to determine if the intersection should be widened with the purchase of a strip of ground.

Vesel said he noticed the vacant property is being staked for development and he was certain 15 to 20 feet could be bought by the city to provide an adequate roadway.

Referred to the police chief was an application for a pinball machine distributor license submitted to the city council last week by Victor Renner of Collinsville.

ENJOYING THAT SMOOTH, SMOOTH RIDE?

Thank the men who plan and build your new concrete highways!

Next time you're cruising smoothly along on a modern concrete highway, give a nod of thanks to the men responsible for your comfort and safety. When your state highway commissioners and highway engineers choose concrete, you know they are giving you the best.

Important advances in pavement design make it possible for engineers to give you an expected 50 years and more of superb driving pleasure from every mile of concrete highway.

Many of the advances in highway planning and construction methods have been brought about through the efforts of skilled engineers in state highway departments across the nation. And as the new Interstate System highway program swings into full speed, the responsibilities of these men grow heavier day by day.

The decisions they make—in the best interests of all the people—will affect your welfare and prosperity for generations to come. They deserve your enthusiastic support and cooperation.

\$284,000 County Balance Aided By 95% Tax Net

General revenue funds of the Madison county treasury show a \$284,105 balance after the first nine months of the 1960-61 fiscal year — compared to \$105,465 at the start of the year — with income of \$1,173,916 exceeding the \$895,276 expenditures by \$175,840.

In a financial report, County Auditor John L. Kravynak notes that the "fund balance shows a sizeable increase over last year at this time, when the balance was \$237,701.

"Final distribution on 1959 taxes has been received, and the net collected was \$693,474 against a levy of \$725,036. This yield of 95.5% is very good. Warrants payable are large this month — \$170,704 of \$454,809 on hand — owing to the late board meeting in April."

While total expenditures of 68% show much less percentage-wise than the normal of 75% at the close of the month, Kravynak says the budget status is "alarming" and "perilous." In some respects, The Supervisor, Claims, Dependent Children and County Officers' Printing funds have insufficient funds for the remainder of the year, which ends July 31, and there are danger signals in other departments, he comments.

General funds spent so far include \$401,138 fees and salaries, \$6890 transportation, \$38,204 supervisors, \$57,494 town accounts, \$990 physicians, \$933 juvenile home sales tax fund, \$84,060 dependent children, \$48,861 county officers' printing, \$68,729 county jail, \$15,794 county jail sales tax fund, \$60,880 courthouse, \$27,530 courthouse sales tax fund, \$80,875 nursing home, \$41,452 county board room construction and \$2728 previously encountered nursing home disbursements.

Spending under special tax funds during the August-April period amounted to \$268,412 for county highways, \$206,033 tuberculosis sanatorium, \$59,087 county bridges, \$35,365 assessment maps and plats, \$3000 land use survey encumbrance, \$7438 civil defense and \$6833 veterans' assistance.
